

GUIDELINES FOR TECHNICAL PAPER SUBMISSION

Papers must be original, strictly focused on the presentation of cases and/or technical, operational or scientific studies and have no commercial purpose.

Both abstracts and technical papers can be submitted in Spanish or in English version. However, it shall be included a ‘*Resumen*’ (in Spanish) and an Abstract (in English).

The format to use for the paper presentation is included in the Word document attached, the template named “Plantilla_Trabajos_Tecnicos.docx”.

This document does not only describe the format for the text paragraphs and the recommended format for images, charts, tables and references, but also includes the font styles to facilitate the Author’s task.

Therefore, we suggest using this template to write the paper you’d like to publish.

Predefined styles in the template are:

- Authors
- Conclusions list
- Standard
- List style paragraph
- Subtitle
- Normal table
- Title 1
- Title 2
- Title 3
- Figure’s title
- Table’s title

Once uploaded to the Congress System, authors must send via e-mail to congresos@iapg.org.ar:

- The paper publication authorization form duly signed by author(s).
- A high-resolution photo (+780 pixels), square size 4x4 and in a .jpg file.

Papers must be uploaded to the Congress System (<https://siscon.iapg.org.ar/>) in Word format and have a maximum extension of 25 pages (including tables, charts, pictures, appendix and bibliography).

The paper size must be A4, in only one column and as indicated in our document “Plantilla_TT.docx”.
